

# ZYTO

## What is ZYTO?

**ZYTO** is a bio-communication scan. It is a simple and painless technique using energetic impulses conducted through multiple input channels in the palm of your hand. The scan takes place using the ZYTO hand cradle and takes about 3-5 minutes. A final report is produced immediately that your practitioner can review and you can take home with you.

## Payment Policy

There is no insurance coverage available for this service. Because HSA accounts must only be used for expenses that are "primarily used to alleviate or prevent a physical or mental defect or illness", the ZYTO scan is not eligible.

**The initial ZYTO scan is complimentary.** Follow-up scans are \$50; payment is due prior to the scan. *Payment is applicable to purchase of ZYTO-recommended supplements.* Multiple-scan discounts of 10% of total purchase price must be paid in advance.

## Disclaimer

ZYTO scans do not diagnose or recommend treatments, they simply provide information that should be considered by a qualified healthcare professional in determining a course of action. These reports are confidential.

What I decide to do with the information provided by the scan, including any therapies or supplements I choose as a result, is my own personal responsibility and choice. All scan data should at no time be regarded as legal, medical, financial, psychological or business fact and are subject to my own interpretation and judgment. This scan is not a substitute for professional services and it is advised that I seek advice from a relevant qualified expert.
